

POWERFUL LIQUID COOLED POLARIS 800 EFI ENGINE

VERSATILE REAR CARGO BOX

- The rugged, composite utility box has a carrying capacity of 362.9 kg and uses a gas-assist mechanism to make dumping the heavy loads easier.

SINGLE LEVER BRAKES

- Like the rest of the Sportsman line, the Sportsman 6x6 uses single-lever braking for hydraulic disc stopping power on all wheels.

FRONT CARGO BOX

- 27 litre capacity.

SIX-WHEEL SUSPENSION & SHAFT DRIVE

- IRS provides 15.5 cm of rear travel.
- MacPherson front struts provide 20.8 cm of front travel.
- Improved ground clearance of 26.7 cm vs. 14 cm in earlier models.
- Six-wheel shaft drive.

HEAVY-DUTY HITCH

- A heavy-duty hitch gives the Sportsman 6x6 the versatility to handle towed loads up to 680 kgs.

ENGINE BREAKING SYSTEM WITH ACTIVE DESCENT CONTROL

- ADC provides four-wheel braking when vehicle is in AWD, ADC is operating at speeds below 24 km/h and no throttle is being applied.

ON DEMAND ALL-WHEEL DRIVE

- The Polaris On Demand All-Wheel Drive (AWD) system provides true 6-wheel drive and automatically engages when the rider needs more forward traction. It reverts to 4WD (rear wheels) automatically when AWD is no longer needed.

PVT TRANSMISSION

- PVT (Polaris Variable Transmission), the industry's all-time best-selling automatic transmission, continually senses engine speed and vehicle torque load to provide the proper amount of power to the drive wheels in every type of riding situation.
